Saints Tradition

An old Saints tradition is that friends who have not seen or heard from each other for long periods of time never question their friendship. These friendships resume at the same time they left off regardless of distance and time between them. We call these friends "Family".

Mike Morell Vietnam Award:

Agent Orange Update: Submitted by Hubert Cook

A plan to extend disability benefits to nearly 100,000 war veterans potentially exposed to Agent Orange on ships off the Vietnam coastline were sidelined 31 OCT over the ongoing dispute about how to pay for it. The failure again raises problematic questions for lawmakers about how to balance federal costs with government responsibilities. Critics noted that on the same day lawmakers offered a massive tax reform measure expected to cost \$5.8 trillion over 10 years, they could not find a way to cover a small fraction of that total to help sick veterans. “We’re absolutely appalled at Congress’ inability to reach bipartisan support to take care of it’s blue water veterans,” said Mike Little, director of legislative affairs at the Association of the United States Navy.

At issue is a change in VA policy 15 years ago that excluded veterans serving on ships off the coast of Vietnam — known as “blue water Navy veterans” — from being included in a class of former service members presumed to be exposed to Agent Orange. Troops who served on the ground in Vietnam or patrolled inland rivers are given special status, simplifying the process to receive disability benefits. But the blue water veterans still must prove they were directly exposed to Agent Orange for their illnesses to be labeled as service-connected. In many cases, collecting scientific evidence of the presence of the chemical on or near the ships is impossible, given the decades that have passed.

A House bill to restore that status to the Vietnam War sailors has 317 co-sponsors, more than enough to advance the legislation if it reaches the House floor. But leaders on the House Veterans’ Affairs Committee haven’t moved the legislation there because of disagreements over how to pay for the change — expected to total about \$1.1 billion over 10 years.

Vietnam – Why were so many Pilots shot down? Submitted by Ed Chadwick

“The Secret War and Other Conflicts”

(Published 2014 by GENERAL PETE PIOTROWSKI ISBN 978-1-4931-6187-4 (Hardcover)) Following is “Nearly twenty years later, former Secretary of State Dean Rusk being interviewed by Peter Arnett on a CBC documentary called, “The Ten Thousand Day War”. Mr Arnett asked, “It has been rumored that the United States provided the North Vietnamese government the names of the targets that would be bombed the following day. Is there any truth to that allegation?”

To everyone’s astonishment and absolute disgust, the former Secretary responded, “Yes. We didn’t want to harm the North Vietnamese people, so we passed the targets to the Swiss embassy in Washington with instructions to pass them to the NVN government through their embassy in Hanoi.” As we watched in horror, Secretary Rusk went on to say, “All we wanted to do is demonstrate to the North Vietnamese leadership that we could strike targets at will, but we didn’t want to kill innocent people. By giving the North Vietnamese advanced warning of the targets to be attacked, we thought they would tell the workers to stay home.” No wonder all the targets were so heavily defended day after day! The NVN obviously moved as many guns as they could overnight to better defend each target they knew was going to be attacked. Clearly, many brave American Air Force and Navy fliers died or spent years in NVN prison camps as a direct result of being intentionally betrayed by Secretary Rusk and Secretary McNamara, and perhaps, President Johnson himself. I cannot think of a more duplicitous and treacherous act of American government officials. Dean Rusk served as Secretary of State from January 21, 1961, through to January 20, 1969, under President John F. Kennedy and Lyndon B. Johnson.

Part 2: Most restrictions were lifted by the summer of 1967, however, the White House selected targets from a comprehensive list provided by commanders in the action. Our air group conducted Alpha strikes on North Vietnamese airfields Kep and Phuc Yen that summer and fall. The air defenses were fierce at both targets. I went to each [I think] twice and there were no aircraft destroyed on the ground then or any other of our missions, regardless of claims made in McCain's book. The Vietnamese were either forewarned or saw us coming on their radars. We cratered the runways and one of our pilots blew a hole in the main hanger at Phuc Yen with a Walleye. The prohibition of bombing ships was never lifted and all the advanced nations were supplying the enemy. We sunk the dredges that maintained the waterway to Haiphong, so only one ship at a time could get into the docks. There were always several ships waiting their turn at the north end of the Tonkin Gulf. I got in trouble for getting a Canadian ship hit by AA from an island, which formerly supported their PT boats. I flew between the island and the ships at anchor. The Chinese were shooting from their ships and the island guns were also trying to hit me. I guessed the right altitude and airspeed and a Canadian freighter got racked with fire from the island. After the second incident I was reprimanded by our Admiral. He told me the next time that happened, not to land on his ship. One black night I mistakenly bombed a Chinese freighter, which nearly cost me 20 years in Leavenworth. Due to my past exploits no one seemed to believe it was a mistake. The Admiral and the ship's captain talked on the land line to the President, while my skipper and I stood at attention. Two times I heard my name paired with "20 years Leavenworth". That night I decided not to make the military a carrier. The reason I got off the hook was that there was no reporter aboard the ship that night, so the United States denied the Chinese allegation. I served a total of 5 years on

active duty and almost one year in the reserves. I loved the flying, but had problems with authority. Ed

It's more dangerous than most combat missions and the tension in the pilots and crew is very apparent.

Oh the good old days. Scooter drivers prepare to shed a tear.....

The best Blue Angel show of all time. A-4's. Here is a video of them from the '70's. Bear Smith and Skip Umsted are the last two guys walking towards the camera before they get to their planes. They both died later in aircraft accidents. The crazy solo is Denny Sapp. Best show for the spectators because it was close to show center. Always in sight.

Resource Book with details of all aircraft loss on every cruise: Submitted by Ed Chadwick

Here is a site where books by Rene J. Francillon can be purchased. His "**Tonkin Gulf Yacht Club**" has a section that shows every carrier deployment during the Vietnam. It details each aircraft loss on every cruise, including the date, aircraft type, aircraft identification, squadron, pilots name / rank and well as whether the pilot was KIA, recovered or made a POW. I look at the book when memory fails me. It's a great resource.

Thank you to ALL who have served our country! I live in a free nation because of your sacrifice! God Bless you! Because of the warriors of the past, the present, and the future, we Americans can walk tall.
For those of you of may not know, or have forgotten, Lt. Col. Oliver North was wounded in Vietnam many times and never left the men he commanded. I am now passing this on for you to watch. It's not just enjoyable, it is riveting! When you are done pass it on too, I think it's

important ... don't you?

If you are a veteran, I say thank you, for everything! You are SO special! Take the time for this one. You won't be disappointed ... the end is a kicker.
